

Checked Baggage Allowance by Cabin Class

On most TravelBot-booked international itineraries, economy class tickets include one checked bag up to 23 kilograms, premium economy includes one bag up to 23 kilograms with a higher excess-baggage discount, and business class includes two checked bags up to 32 kilograms each. Domestic itineraries within the same region usually carry a lower allowance, often a single 20 kilogram bag in economy, so always check the specific allowance shown at checkout for your fare before you pack.

Carry-on Limits and Excess Baggage Fees

Every passenger may bring one cabin bag up to 7 kilograms that fits the sizer at the gate, plus one small personal item such as a handbag or laptop bag. Bags that exceed the checked allowance are charged an excess-baggage fee per kilogram, billed at the airport check-in counter; pre-paying for extra weight online is usually cheaper than paying at the airport. Sporting equipment and musical instruments may be carried as checked baggage subject to size limits — contact support in advance to confirm space is available.
